---

That's correct. Note on Fish Tissue comments – We are updating the TCT comment tracking tables due to some comments Karl added to the comment set. I'll have those back to you today.

The only Draft comments/tracking tables on planning documents we have left to provide you are: Subsurface Sediment FSP and Surface Sediment FSP. I should have these to you no later than Wednesday 2-14.

Subject: Quick confirmation of FSP comments

Hi Scott,

I am sorting out the draft comments I have received so far. At this point, I have sent the DQMP, HASP and Bathy. I have in my possession, fish tracking, QAPP, pore water, fish tissue, and surface water and sediment trap. Let me know if I have missed any of the comments.

Tomorrow is my last day in office, but I will try get the comments to Ken while I am off.

Thanks,
